

Kerel Sharfner

Vice President

Professional Experience

CAREER SUMMARY

Kerel Sharfner began at Daum Commercial Real Estate Services in 2014 after a successful career in high-tech services, selling commercial real estate software for companies LoopNet and The CoStar Group. Kerel maintained a unique advantage in the marketplace as he invested several years personally visiting and speaking with dozens of commercial real estate firms, owners, property managers, escrow officers, title reps, and Lenders. The invaluable insight gained from these meetings convinced Kerel to take advantage of this knowledge and enter the brokerage field as an agent. Utilizing strategies once taught by several industry professionals, he hit the ground running building quality relationships, and working hard to introduce a strong work ethic to the marketplace.

Mr. Sharfner is a Vice President with DAUM specializing in selling and leasing industrial and investment properties in the central Los Angeles market areas of Los Angeles, Vernon, and Huntington Park. Throughout his young tenure as a commercial agent he has completed over 500,000 square feet in transactions totaling over \$30MM in aggregated value.
